Water soluble fertilizers

High-performance technological NPK fertilizers with protected nutrients, designed for application via irrigation, adapted to each phase of the crop.

AquaREDFLOW

Water-soluble crystalline NPKs with "Flow" properties and microelements

AquaREDMASTER

Water-soluble crystalline NPK fertilizers with biostimulant properties and chelated microelements

AquaREDPRO

WS NPK biostimulant with protected microelements and enhanced with specific amino acids and tricarboxylic acids

AquaREDKALI

Water-soluble complex PK fertilizer 0-40-40 with anti-caking properties

Biostimulants

Plant biostimulants are formulated to enhance physiological functions within plants, bolstering their performance and resilience to stressful environmental conditions.

Aminored**FORCE**

Organic biostimulant plant enhancer that multiplies plant growth and improves production.

Aminored**FORCE*AZ**

Organic plant growth activator and production enhancer, enriched with prebiotics and probiotics to facilitate nitrogen fixation.

Aminored**VIGOR**

Organic crop recovery after periods of stress, with physioactivating properties.

Aminored**VIGOR*AZ**

Organic crop recuperator with biostimulants, enriched with prebiotics and probiotics to improve nitrogen fixation.

Aminored**TERRA**

Organic and ecological crop recovery after stress situations, with physioactivating properties.

Aminored**PLUS**

Organic NPK biostimulant, rich in organic matter and concentrated in free amino acids.

Aminored**GOLDEN**

Organic biostimulant, rich in organic matter and concentrated in free amino acids.

Aminored**MAX22**

Completely assimilable biostimulant formulated with 22% amino acids

Nutritional Correctors

Chelated and/or complexed microelements for rapid assimilation, and in many cases, with biostimulant effects. These have been specially designed to meet the specific needs of various types of crops.

Nutrired**FRUITSET**

Water-soluble formula to improve fruit setting.
Formulated with phosphorus and boron.

Nutrired**QUALITY**

Pre-harvest solution to improve preservation and delay fruit oxidation

Nutrired**COMPLET**

Multi-activator nutrient pack for total correction of deficiencies.

Nutrired**MIX**

Corrector based on chelated and complexed microelements for optimal assimilation

Nutrired**ZN*MN**

Amino Acid Complex Liquid Fertilizer with Zinc and Manganese Supplementation

Nutrired**CUPRA**

Copper solution complexed with amino acids that prevents and corrects copper efficiencies.

Nutrired**FER*BIO**

Ecological solution of complexed iron for a fast and effective correction

Nutrired**BORMO**

Organic Biostimulant to Correct Boron and Molybdenum Deficiencies

Foliar NPK Fertilizers

Advanced technological solutions, with protected nutrients and stimulants, designed for application to a variety of crops using flood, nozzle, overhead or drip irrigation methods.

FoliredAMIN*N

Complete NPK nutrition: foliar biostimulant with chelated micronutrients, and amino acids.

FoliredAMIN*P

Complete NP nutrition: foliar biostimulant with chelated micronutrients, and amino acids.

FoliredAMIN*K

Complete NPK nutrition: foliar biostimulant with chelated micronutrients, and amino acids.

FoliredNUTRI*N

Complete nitrogen and NPK fertilizers for foliar application, low in chloride and with microelements.

FoliredNUTRI*K

Complete nitrogen and NPK fertilizers for foliar application, low in chloride and with microelements.

FoliredNUTRI*NK

Complete nitrogen and NPK fertilizers for foliar application, low in chloride and with microelements.

Soil improvers

Range of products designed to recover and improve the physical and biological properties of soils.

Humired**RENOVA75**

Atomized biological solution for soil revitalization, which actively promotes vegetative development

Humired**RENOVA66**

Atomized humic acids for root stimulation and soil regeneration.

Humired**RENOVA25**

Liquid soil fertility enhancers, based on humic extracts, for direct root application

Humired**RENOVA16**

Humic extracts that enhance soil fertility for root application.

Humired**RENOVA20**

Humic extracts that enhance soil fertility for root application.

Humired**VALENS**

Solid amino acid designed to improve the physical, chemical and biological properties of soils.

Humired**REVITA**

Organic revitalizer with biostimulation, designed to release the maximum nutritional and microbial potential of the soil

Humired**REVITALIQ**

Biological activator and salt displacer with rapidly assimilated calcium and magnesium and amino acids.

Conditioners

Compounds that promote chemical stability in the final product

CondiredAcid⁺

Growth-activating nitrogen solution with descaling properties

CondiredpH⁺

pH regulating solution with wetting and antifoaming properties and visual color indicators.

CondiredSalt⁺

Soil desalinator in liquid form with calcium complexation.

CondiredN⁺

Multi-effect root bulb activator, soil optimizer in fertigation.

CondiredN-AMIN⁺

Root bulb activator with biostimulant effect, soil optimizer in fertigation

CondiredWATER⁺

Non-microbial biostimulant for improving natural water retention capacity

Activators

Fertilizers designed to promote specific stages of plant development.

ActiredHUMIK

Potassium-based fertilizer, soluble in water, designed to promote the stimulation of determined physiological processes.

ActiredHUMIK*PLUS

Potassium-based fertilizer, soluble in water, designed to promote the maturity and quality of fruits.

ActiredPOTASH

Concentrated potassium solution, specially designed to optimize crop quality and yield

ActiredSOLUB*K

Highly efficient potassium aminosulfate, enhancer of all physiological processes in plants.

ActiredSOLUB*PK

Highly efficient potassium aminophosphate, enhancer of all physiological processes in plants.

ActiredRHIZO*AZ

Activator of rapid germination and establishment, incorporates probiotics that improve the availability of nitrogen for plants.

Granular fertilizers

Fertilizers formulated with the most advanced technologies, designed to meet the nutritional needs and application methods for each crop.

TecniredSOP

Advanced NPK fertilizers
SOP based, boosted with
essential trace elements

TecniredMICRO

Microgranular fertilizer
designed for ultra-localized
application near seeds in
precision fertilization.

TecniredPHOS

Phosphorus fertilizer
specially designed to work
in acidic soils

TecniredULTRA

Fertilizers formulated with
the latest technologies in
nutrient efficiency.

TecniredMULTI

Nutritional supplements to
boost blending mixtures.
